

Adding animals

Count and add the animals, and then write the new number.

$$\boxed{2} + \boxed{6} = \boxed{8}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

Fill in the missing numbers in the equations.

$$7 + 4 = \boxed{11}$$

$$3 + \boxed{} = 12$$

$$6 + 6 = \boxed{}$$

$$9 + 5 = \boxed{}$$

$$2 + 8 = \boxed{}$$

$$3 + 11 = \boxed{}$$

$$9 + 3 = \boxed{}$$

$$6 + \boxed{} = 10$$

$$13 + \boxed{} = 17$$

$$2 + \boxed{} = 5$$

$$16 + \boxed{} = 16$$

$$15 + \boxed{} = 19$$

Adding animals

Count and add the animals, and then write the new number.

$$2 + 6 = 8$$

$$7 + 7 = 14$$

$$5 + 8 = 13$$

$$8 + 9 = 17$$

$$9 + 3 = 12$$

$$6 + 4 = 10$$

Fill in the missing numbers in the equations.

$$7 + 4 = 11$$

$$3 + 9 = 12$$

$$6 + 6 = 12$$

$$9 + 5 = 14$$

$$2 + 8 = 10$$

$$3 + 11 = 14$$

$$9 + 3 = 12$$

$$6 + 4 = 10$$

$$13 + 4 = 17$$

$$2 + 3 = 5$$

$$16 + 0 = 16$$

$$15 + 4 = 19$$

Children can solve these problems by counting on. They might also find it helpful to check their answers by using a number line.
