

Thursday, March 19, 2020: District Email

Hello district families,

This update is to let you know that starting tomorrow, K-12+ teachers will be reaching out to students at their family phone numbers. The calls will provide an opportunity to connect, along with ensuring we are able to collect information and provide services to best serve our students and families.

Please make sure your information is updated in Skyward so we can be sure to reach you. The phone number that will be on your caller ID may not be the district phone number you're used to seeing.

We look forward to connecting!
