Date: August 20, 2018

RE: 2018 State Accountability Report

The Texas Education Agency released the 2018 State Accountability Reports on August 15, 2018. The state accountability system is based upon the State of Texas Assessments of Academic Readiness (STAAR) examinations, college readiness measures, and the complex rating system developed by the state. This is the first year of this version of the state accountability system with A through F grades assigned to districts.

South Texas ISD received an A accountability rating with an overall numeric score of 97. The district received the Post-Secondary Readiness Distinction. This is the only distinction available at the district level. STISD has earned this distinction for the fifth consecutive year, which is every year it has been part of the state accountability system.

The state did not assign individual campuses the A through F ratings this year. However, each of our campuses would have been rated an A.

The STISD campuses overall numeric scores for this year are: STPA – 97, Rising Scholars – 96, BETA – 96, Medical Academy – 96, Med High – 94, and Science Academy – 97. STPA, Rising Scholars, and Medical Academy received all distinctions available. BETA, Med High, and Science Academy received all distinctions except one.

The district and campus reports are on the following pages.

We are proud of our students, parents, teachers, and all faculty members. The high level of student performance reflected in these reports demonstrates their hard work and commitment to excellence.

Thank you.

HOW WELL IS THIS DISTRICT PERFORMING OVERALL?

UNDERSTANDING OVERALL PERFORMANCE

This report card is designed to tell us how well we are helping students reach grade level and how well we are preparing them for success after high school. Much like the grades we give students, we can use these grades to identify ways to help schools improve over time. The overall grade is based on performance in three different areas, or domains, which are noted below.

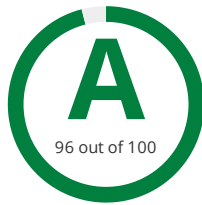

STUDENT ACHIEVEMENT

The Student Achievement domain tells us how much students know and are able to do at the end of the school year.

SCHOOL PROGRESS

The School Progress domain shows us how students are performing over time and compares that progress to similar schools.

CLOSING THE GAPS

The Closing the Gaps domain tells us how well different populations of students in a district are performing.
