RE: Advanced Placement (AP) and International Baccalaureate (IB) 2019 Score Report

Please find the attached pages with 2019 South Texas ISD Advanced Placement (AP) and International Baccalaureate (IB) Score Reports. The AP and IB scores for this year were recently released. The first set of pages is the AP Summary Report (District and Campuses). Following that are the AP Equity and Excellence reports for STISD and each of our high school campuses. We keep striving for our goal of reaching 100% of our graduates with a qualifying score in at least one subject area AP or IB exam.

The following set of pages is the AP Five-Year School Summary report on each of our school campuses with the exception of Rising Scholars. Rising Scholars has not yet started administering any AP exams. This report shows both the number of STISD students taking AP exams and the number of qualifying scores at each campus.

The final page of this report is the IB scores summary report. It shows the continued development of the IB program and students at the STISD World Scholars campus.

The STISD philosophy of reaching out to all students to participate in rigorous course offerings is essential in our continued growth. Unlike schools around the state and nation, we are not screening or using any barriers to advanced placement or international baccalaureate student participation. We continue to actively recruit, encourage, and support every student to participate in the rigorous coursework and testing.

Our students, parents, teachers, and campus staff are to be commended for their commitment to taking on hard challenges and striving for excellence.

Thank you.

MARCO ANTONIO LARA, JR., ED.D.
Superintendent

JEFF HEMBREE
Deputy Superintendent

MARLA R. KNAUB
Assistant Superintendent for Finance

Equity and Excellence, Aggregated for Districts - 2019

Data Updated: July 20, 2019

South Texas Independent School District (D224630)

Report Run: July 23, 2019

This report provides you with a means to assess both the equity and excellence of your district's AP program. Specifically, it shows the proportion of your district's entire senior class who scored a 3 or higher on an AP Exam at any point during high school. Additionally, you can see what percentage of your district's entire tenth, eleventh, and twelfth grade classes took and scored a 3 or higher on at least one AP Exam in May 2019.

In this calculation, students who score a 3 or higher on an AP Exam are counted only once, regardless of how many AP Exams they took and were successful in. There is no way to inflate this percentage by restricting access to AP; students who earn 1s or 2s on AP Exams neither increase nor reduce the percentage. In addition, by showing the proportion of the overall population – not just the AP classroom – educators are better able to determine the extent to which their overall population is receiving access to advanced academics in high school.

Note: Your district's enrollment count is the sum of the district's school enrollment counts submitted by each school's AP Coordinator when placing their school's order for AP Exams.

Group	Percentage	How is this calculated?
Graduating Class Summary	66.3%	Number of your district's seniors who scored 3 or higher on at least one AP Exam at any point during high school divided by the total number of your district's seniors.
12th Grade	32.4%	
11th Grade	33.7%	Number of AP students per grade level who scored 3 or higher on at least one AP Exam this year divided by the total number of students in each grade.
10th Grade	31.7%	

If an asterisk (*) appears in the table above it indicates that not all schools in the district were included in this calculation because one or more schools did not submit an enrollment count for this grade level.

If 'n/a' appears in the table above, the percentage is not available because none of the schools in the district submitted an enrollment count for this grade level.

This report provides you with a means to assess both the equity and excellence of your school's AP program. Specifically, it shows the proportion of your school's entire senior class who scored a 3 or higher on an AP Exam at any point during high school. Additionally, you can see what percentage of your school's entire tenth, eleventh, and twelfth grade classes took and scored a 3 or higher on at least one AP Exam in May 2019.
