

# Whitfield's eLearning Points of Emphasis

In addition to providing **ACADEMIC ENGAGEMENT AND CONTINUITY** when on-campus learning is not possible, Whitfield's approach to eLearning places special emphasis on three mindsets that are critical to the Whitfield student experience but often overlooked in distance education programs: **RELATIONSHIPS & FACETIME**, **COLLABORATION & DISCUSSION**, AND **PHYSICAL & MENTAL WELLNESS**. The school's extraordinary faculty, inclusive one-to-one technology program, and recognition of the home as a unique learning experience together guide student transitions between on-campus and off-campus learning.

**RELATIONSHIPS & FACETIME** are the bedrock of the student experience, on or off campus. In a multiple-day eLearning environment, students and teachers see, hear, support, or interact with each other daily using a variety of technology tools, including Whitfield's robust learning management system (LMS).

**COLLABORATION & DISCUSSION** in the digital world are designed into both on-campus and eLearning environments. Whitfield's longstanding, integrated tools for this work include: Warrior Web LMS, Google Suite, Office 365, VoiceThread, Microsoft Whiteboard, Edpuzzle, and Microsoft OneNote.

**PHYSICAL & MENTAL WELLNESS** for students, families, and staff is paramount in eLearning. The school realizes that remote work presents its own set of opportunities and challenges, and has designed its eLearning protocols to reflect best practices, boundaries, and Habits of Mind & Heart at home.
