March 29, 2020

Dear Parkland Families,

Parkland School District will begin our e-Learning Program tomorrow, March 30, 2020. All students should plan to log into Schoology and check their e-Learning folder to receive communication from their teachers. There may be instances where your child's teacher will connect using a different platform. In that case, please follow your teacher's instructions.

The goal of the upcoming week will be to get acquainted with an online learning environment. Our teachers are committed to demonstrating patience and flexibility. Our goal is to help comfort families during this extremely difficult time by adding some school structure. Your children will be given a lot of time to work on assignments given all that families may be juggling at home.

We've compiled a list of [Frequently Asked Questions \(FAQ\)](#) for parents to review and we'll provide ongoing updates to the FAQ as necessary. Please feel free to email your child's teacher or principal with questions. For your convenience, here is a link to our [Staff Directory](#).

Thank you for your partnership on this evolving journey.
