

Speech Therapy Ideas

March 30- April 3 2020

We are here for you!

Each week the RSD speech therapists will provide ideas to increase your child's speech and language development.

If you have specific questions, please contact your building's speech-language pathologist.

Activities:

Read a book with your child. Have them find their speech target sound or word and write it down. Have them practice that word 5 x or make a sentence.

Play a game with your child. Before they have a turn, have them practice a speech target 3 times.

Go for a walk and have your child find different categories (i.e., all things that are green, things that grow, things that are soft, etc.).
