March 30, 2020

Hello Parkland Families and Staff,

Governor Wolf today announced that all schools will be closed until further notice. Our plan is to continue online learning. As we shared in the e-Learning Plan on March 25, we will use the next two weeks to transition to online learning and then regular grading/assessments will begin after spring break. We still plan on having spring break occur April 9-13th. We will remain as flexible as we need to be under these unprecedented circumstances with regards to preparing our students to matriculate to the next grade level by June 12th, which is our intended last day of school, whether it be through online or in-person instruction. Parkland High School is moving forward with its marking period calendar and we do not anticipate any change to the graduation date at this time.

Stay well,

Parkland School District
