MARKING THEIR OWN STORIES

ODE TO ST. MARK'S EPISCOPAL SCHOOL IN 60 LINES OF IAMBIC TETRAMETER

By the Class of 2020, Edited by Ms. Holub

*I love to go to St. Mark's School,
And every day is something new.
St. Mark's is not just very cool;
It's full of knowledge through and through.*

*A school that started long ago
Where teachers all help us engage.
The current tech and arts now show
Our school can stay in any age!*

*The school has a good sports program.
They don't fall short of things to do.
Your time at St. Mark's is quite grand,
So come along and join the crew.*

*St. Mark's is strong, and kind, and brave.
This school is where we change and grow.
Knowledge is what we learn to crave.
A place to help us when we go.*

*The safest place where one can dream,
A place where people want to stay
And be with friends as a close team,
Somewhere to learn throughout the day.*

*While education is the key,
To live with great pride and success,
St. Mark's is like a family,
That is much different from the rest.*

*St. Mark's community is strong,
Perfect in every single way.
Relationships last all life long.
Make memories every single day.*

*There was a time, a way back when
We loved to sing, and shout, and rhyme.
We read about the hares and hens
And learned to walk in a straight line.*

*Nap time--a most important part--
And playtime was the best by far.
The first-grade kids were very smart.
We would do pull-ups on the bar.*

*We marched, new holy grails in hand.
Lined up now, last year wearing red.
Division we must understand.
It's Lower past, Middle ahead.*

*We got our new iPads! Yippee!
"The Little Mermaid" musical,
Toured Austin, learned Texas history,
Fresh lens is how we viewed the school.*

*In seventh grade, we learned fungi,
And then we went to Tennessee.
In eighth, for high schools we apply,
To find a fit for you and me.*

*I hope to stay around in May
To help my friends and end the year.
The teachers aid us all the way
To keep us safe and calm our fear.*

*Our St. Mark's teachers are the best.
They love to help us learn and grow.
We give our teachers much respect.
They tell us what we need to know.*

*St. Mark's is fun to hang around.
I love my friends and faculty.
From sports and art to fun abound.
This is the perfect place to be!*
