

**A VISION**

Roger C. Shmuck, Rector of St. Mark's Episcopal Church,  
in his address at the Annual Parish Meeting in January of 1959.

“ The third thing which I hope St. Mark's will be able to start sometime in 1959 is a Day School for pre-school children. I feel it is St. Mark's privilege, as well as St. Mark's moral obligation to minister to the lives of the little ones, if we possibly can. In the strategic geographical location in which St. Mark's finds itself, this Church Day School for pre-school children might very well become one of the most important aspects of the ministry of this parish to the community in which it finds itself. ”
