

## PLAYGROUND CAMPAIGN

# COME *play* WITH US!

St. Mark's constructed our main lower school building along with a playground in 2004. The design has served us well and now, 15 years later, playground philosophy has evolved, as our school has evolved. In the spring of 2019, we launched the Come Play with Us campaign so we could imagine a new landscape for outdoor play at St. Mark's.

The new playground equipment offers tremendous play value and capacity, while also aiding in physical and cognitive development. All new equipment and surfacing is suitable for all abilities, and free of tripping or mobility hazards.
