For Students

- Sing and move along with all of the songs as directed. You may need to hear/watch each song/video a few times to learn it.
- Participate fully. The more you move, the more you will remember, the more you create, the more you will remember, and the more you sing, the more you will remember! If you have a recorder at home, this is a great time to practice using the recorder section (in left menu).

Additional Resources

- Units (in the left menu): Select the box labeled "Dance" and then the Grade 3-4 tab. Scroll down and try "Seven Jumps." For more exercise, replace the A section with 8 side shuffles to the right, then 8 side shuffles to the left, with the beat. You could even try 16 jumping jacks to the beat. Be creative in creating two 8-count exercises you can do! On the long tones in the B section, do the listed movements. Each time through, one more long tone will be added.
 - Note: The play button for the music is super small and is in the lower left hand corner under the instructions.
