

How can the ACE provide support during online learning?

Did you know that the Academic Center for Excellence (ACE) is a service that ALREADY exists at Notre Dame Prep? It was initially created as a unique pathway extending the supports provided through the St. Aloysius Gonzaga program. Students who demonstrate a need for accommodations to support learning differences are afforded the opportunity to have a study hall where tutoring with teachers is available. And NOW, we are available to provide support during online learning!

WHO is your ACE team? We are a team of certified educators and specialists with MANY years of combined experience in the areas of: Special Education, English, Chemistry, Math, Executive Function, and Attention. We collaborate with teachers in all departments to understand their assignments and then work with the student to come up with a plan or provide supplemental instruction to complete the work.
