Mission Statement

AISD provides a program based on American educational principles to students from an international community.

We create an academic and social environment that challenges students to achieve their potential, become life-long learners and contribute to a changing global society.

Vision Statement

Preparing students to become stewards of a just and sustainable world.

School & Community

Founded in 1972, AISD was established by the U.S. State Department to serve diplomatic communities such as the United Nations and other international business communities, including many non-government organizations such as the World Health Organization, CARE, UNWoman, Save the Children and at least fifteen others. Thus, AISD strives to meet the needs of children coming to us from around the world from a variety of educational systems. English is the medium of instruction in this Pre-Kindergarten to Grade 12 American-style university preparatory program. We offer English as an Additional Language (EAL) classes and maintain a strong Student Support Services program, following both the IB and American Diploma curricula. A little over 30% of the student population are resident Bangladeshi nationals.

Service Learning

Service Learning is built into our HS program and is essential to our school's vision. Last year, students were able to go out into the community in order to build upon the work that our student groups have been involved in for years. The High School currently supports eleven different organizations in and around Dhaka. Some students are also involved in service projects independent of school activities.

PERCENTAGE BY CLASS

Grading System

AISD is a Standards Based Grading school. Grades reflect student understanding and mastery of skills acquired in each course using an A-NY scale. Grades are converted to a 4 point scale to obtain an overall average grade (i.e. GPA or Grade Point Average). GPAs are based only upon grades earned at AISD. The GPA is obtained by adding the point values of all letter grades, and dividing the sum by the number of credits earned.

Students are not ranked and no class receives additional weight.
