Catching details (ex. spelling, grammar mistakes, etc.)

Creating slideshows

Creating videos

Good memory

Business Minded: Selling things, advertising, promoting

Dedication until tasks are completed

Why do you want to be a member of the yearbook staff?

About the Class:

- Although this is an elective, it is like an extension of Language Arts/English class. Please do not think this is an easy class. It is work!
- Writing & Photography are an important component and several members are needed to take photos and to write stories and captions.
- Meeting deadlines is a must! We work with a yearbook company and they expect us to submit our pages on time.
- The yearbook is created on an online program from Herff-Jones yearbook co. You will have training videos to complete so you can learn the software.
- This class is geared towards students who can work best independently, without a typical classroom structure, and does not miss many school days.
- You will have this class every other day, therefore school attendance is very important because you may have class two days a week or three days week.
- The yearbook class is a creative and inviting place to work. It is a fun class.
- We celebrate meeting our deadlines with pizza parties and other fun events!

Recommendations:

- You will need a recommendation from your current core classroom teachers to recommend you for this class (LA, math, science or social studies). I will email your teachers for a recommendation.
