# Oregon Community College Viewbook

## WHAT YOU NEED | WHERE YOU NEED IT | AT A COST YOU CAN AFFORD

Oregon's 17 Community Colleges cover 60 campuses and centers throughout the state to serve you. They offer a wide variety of credit and non-credit certificates, associate and transfer degrees. Community Colleges offer:

- Classroom instruction experience
- Online opportunities to earn a certificate or degree
- Personal first-rate instruction and support
- Certificates and degrees that transfer to Oregon's public universities
- Lower cost tuition. In 2017 the average cost for in district college students will be \$114.94 per credit hour compared to \$202.52 per credit hour at public university.
- Students who earn a transfer certificate and/or degree receive equal grade point averages when transferring to the universities and graduate at the same time as their peers who started at the university.

Look inside this book for a current list of credit and non-credit certificates, associate and transfer degrees. Program information is subject to change; please contact your local community college for program confirmation.
