

### **Homemade Pasta with Jamie Oliver:**

This is super easy, very economical and delicious. Please give it a try if you can. Be careful with the boiling water, please. To boil is high heat and plenty of bubbles. That is when you would drop your pasta. You need flour and water for this recipe.

---

### **Bolognese with Jamie Oliver's son Buddy:**

Please note Buddy did not use the bear claw in his video and did not wash his hands after playing ball. But Buddy does an outstanding job cooking! Please watch it and enjoy it.

Write what you would do differently and if you like try the making sauce.  
He really did not use a recipe... so again use what you have at home if you choose to make this.
