[Intro to Graphic Design Presentation](#)

Anything a designer would create uses principles. After reviewing the principles of design, search around you for designs you have seen. Examples can be found on cereal boxes, canned vegetables, soups etc. Take a photo and describe the principles you see, explain why and how the designer created the design, and what they did to capture the viewer.

When completed, save the work to your Office365 OneDrive and feel free to share it with your teacher.
