Name: _____ Age: _____

School: _____ Date: _____ Teacher / Grade: _____

Allergy to: _____

Yes, medication is needed at school.

If so, check which of the following: (The school does NOT stock any medications. It is the responsibility of the parent / guardian to provide the school with the medications needed.)

Auto-Injectable Epinephrine Benadryl Both

No, medication is not needed at school.

- Auto-Injectable Epinephrine will be used for severe symptoms only. Severe symptoms include: respiratory distress or unconsciousness.
- In the event Auto-Injectable Epinephrine is used, 911 and the parent / guardian will be contacted. The student will be transported to the hospital by ambulance.
- Antihistamines such as Benadryl will be used for mild symptoms. Mild symptoms include: itchy / runny nose, sneezing, itchy mouth, hives, and mild nausea / discomfort.
- In the event an antihistamine is used the parent will be notified.
- **We will not be able to administer any of the medications listed above without a medication consent signed by a physician or licensed practitioner. It is the responsibility of the parent / guardian to provide the school with the medications needed.**
