

Students

Assignment to Teachers and Classes

In general, students will be placed at the grade level to which they are best adjusted academically, socially and emotionally.

In schools where there are more than one teacher per grade level, student assignments should be made on the basis of heterogeneous groupings.

Each school shall have established policies and procedures regulating the assignment of students to particular classes. These policies and regulations shall provide for the involvement of staff in the class assignment process and an opportunity for parent requests. The final decision for placement of students shall rest with the principal.
