

Kindergarten Parent Connection

Hello Kindergarten Families!

This week we have provided lessons in literacy, math and science/social studies for each day of the week. Our hope is that these activities are helpful and easy to use. As you are going through the lessons and using the provided materials this week, please provide your teacher feedback about how things are going, if there are things we can do to make these lessons easier to use, or if you have trouble accessing any of the online materials.

Daily Routines

This week we have included suggested daily routines in both literacy and math along with the other lessons. We hope that you will engage in some phonics work through repeated reading of the weekly poem as well as provide time for your child to read independently each day, using either printed or online books at their level. In math, we have included a daily warm-up activity hope you can include work on Dreambox at least 3 times per week.

Literacy

Monday 4/20- How to use the vowel shield
Tuesday 4/21- How-To writing
Wednesday 4/22- Scholastic Learn at Home
Thursday 4/23- Write another How-To book
Friday 4/24- Sight Word Write the Room

Math

Monday 4/20- Counting Collection
Tuesday 4/21- Shapes & Spinners Graphing
Wednesday 4/22- 2-D Shape Hunt
Thursday 4/23- Which Bug Will Win?
Friday 4/24- Counting Collection

Science/Social Studies

Monday 4/20- Second Step Lesson 12
Tuesday 4/21- Earth Day Conservation Activities
Wednesday 4/22- Social Studies: My House
Thursday 4/23- STEM Recycled Building Challenge
Friday 4/24- Let's Find Out Magazine

Hello Kindergarteners!

We hope you had a great Spring Break! This week in Reading you will use your vowel shield to hunt for vowels, listen to and answer questions about a story, and will read to yourself. In Writing, you will write 2 How-To books to teach someone how to do something. In Phonics you will practice your snap words and will listen for rhyming words in a new poem. In Math you will practice counting to 100, will count another collection, go on a shape hunt and play two math games that you might remember from the classroom. In Science you will learn more about how to take care of the Earth. In Social Studies you will think about what makes your house special then draw and write about it. You will also practice identifying feelings in your body with Second Step.

Search for vowels in your reading and writing!
