

Good Afternoon Highland's Families and Happy Spring Break!

I hope everyone is doing well, staying healthy, taking care of yourself and kids. Like everyone else, I look forward to the day things are back to normal once again. Last week, teachers worked hard reaching out and connecting with families. This will be important moving forward in order to provide you support with in-home learning and to remain connected. If you have not connected with your child's teacher to this point, please reach out through email. You can find your teacher's email on the highlands website <https://highlands.rentonschools.us/>.

I know there has been a lot of communication from the Renton School District and Highland's Staff. I will keep my communication today brief, but the following items are important to share:

Chromebook Distribution:

This Thursday April 9th, we will be distributing Chromebooks to families who would like to check out a lap-top for in-home learning. If you have not already completed the form, open this link and please complete [chromebook check-out form](#). Distribution will be located at Highlands between 8:00 AM and 10:00 AM.

In-Home Learning:

Please open the highland's website, click on "for families" then click "in-home learning" to access learning activities for your child.

Thank you for all your support and communication. Do not hesitate to contact me for any needs that I may assist with.

Sincerely,
Alfred DeBlasio
