

What we offer...

Before School Program (7a-8:10a)

We open at 7:00 am and the Morning Programming is full of self- selected center choices and a healthy morning snack to help prepare children for the day.

After School Programming (3:10-6:00p)

After school the kids are served a healthy snack. They have the opportunity of starting on homework or make a choice from a range of activities. We love to get the kids outside as soon as possible, weather permitting. We have open play as well as organized activities outside or in the gym. We have a variety of daily special activities, based on the interests and likes of the kids in our program. The activities change from month to month and year to year. Some of the activities include: science experiments, Lego building challenges, STEAM activities, arts and crafts, cooking, cooperative games, animal and nature study, and much more!

Winter/Spring Breaks

You can choose to sign your child up for breaks on a daily basis or for the entire week. On these days we often take fieldtrips and run a camp-like structure, packed with rotations of fun activities.

Summer Camps

We operate summer camps each year packed with fun activities. Locations vary summer to summer. Enrollment occurs in February each year.

Registration will begin Monday, April 27, 2020 @ NOON

Register on-line @ www.jcprdkids.com

Click on the Out of School Time (OST) tab. Choose the school district on the left of the screen. Beneath the school district heading click the register button. We are currently in the process of rolling over to a new software system starting in June. At that time registration will enroll your child and you will get an email to set up your recurring payment option as well as an email with our youth forms to complete. Please follow the instructions in the email to complete the forms before the 1st of August.

Please email any questions that you have during this process to jcprdkids@jocogov.org.
