Drone Developer

After reading “Penguin Census” (April 17, 2020), use the worksheet below to imagine you are developing a new drone app to help scientists count penguins. Use the questions below to design the app.

App Research. Using the article as a starting point, what are some features you would need to include in your app and why?

1. GPS. To track the location of penguin nests and colonies.

2. _____

3. _____

4. _____
