Principal Vicki Murray
Buena Vista Elementary
100 Aldebaran Avenue
Lompoc, CA 93436

SUBJECT: Lead Test Results

Dear Ms. Murray:

On January 10, Vandenberg Village Community Services District (VVCSD) took water samples from four locations within Buena Vista Elementary potable water system. Clinical Laboratory of San Bernardino, Inc., analyzed the samples for lead. All four test results were **Not Detected (ND)** for lead.

A recent California law, Assembly Bill 746, requires public water systems like VVCSD to test drinking water at all public K-12 schools with a building constructed before 2010. Detailed information is available at the following website:

https://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/leadsamplinginschools.shtml

EPA has established an action level (AL) of 15 parts per billion (ppb or $\mu\text{g/l}$) for lead. Drinking water with elevated levels of lead can cause behavioral and cognitive issues, as well as headaches and stomach issues. In children, lead consumption can lead to permanent brain damage.

Please contact me at (805) 733-2475 or mgarner@vvcasd.org if you have questions.

Sincerely,

A handwritten signature in blue ink that reads "Mike Garner". The signature is fluid and cursive, with a long horizontal line extending to the right.

Mike Garner
Operations & Maintenance Manager
