Roll 2 dice. Add up the sum of the numbers on the dice. Read the space with the sum you rolled. Decide if it is the subject or predicate of a sentence. Your partner will check your answer. If you're right, color in the space. The winner is the first one to capture all five pups.

Just print a "Subject and Predicate Pups" game board for each student in the group or pair and an answer key. Students take turns rolling 2 dice, adding up the sum, and identifying subjects and predicates. When correct, students color in that spot on the game board, trying to be the first to collect all five PUPPY spaces! A recording sheet is included for accountability. If students roll a sum after it is already colored, their turn ends.

Print in black and white or print in color and laminate. Students can use dry erase markers to color in spaces. This would make a great center!
