ADJECTIVE MEMORY

*A low-prep ADJECTIVE Memory
or Go Fish game*

Enjoy this freebie and please leave feedback! This low-prep game will have your students matching adjectives to the nouns they describe.

EITHER... give pairs or small groups copies of the cards to turn upside down and take turns turning two over to see if they are a pair, OR have students play like a "Go Fish" game. For example if a student has the "apple" card, they would describe the apple and see if their partner(s) have a card with those adjectives or, the student with the adjective card will read the words and see if their partner(s) have a word that they describe.

OR... use ONLY the picture cards and have students play like the game "Head Bandz"! One student holds the card up to their forehead so he/she cannot see the picture. Another student describes the picture using adjectives until the student can guess the card he/she is holding!

Print in color or black and white!

ADJECTIVE MEMORY
