

Dear First Grade Families,

If your student was able to try out some of the new learning activities, we hope they enjoyed them! Please let us know if you have any feedback as we develop more weekly activities for students.

For this week, we included literacy, math, and science learning activities. The learning activities are now organized by days so hopefully that makes it easier to know what students can work on each day.

As your student works through these activities, they will need someone to guide them through the lessons. If you want more information on the math activities, there is a document within the math section that has directions and example questions that you could ask your student.

Along with these resources, remember to also enjoy digital programs like Dreambox, RAZ kids, and MyOn.

If you have questions or comments for your student's teacher, please contact us at:
