Identify Possible Career Paths to determine best post-secondary option

- Volunteer in the community.
- Talk to adults and ask questions about their careers. Ask about job shadowing/interning.
- Take elective courses in areas of potential interests.
- Mentorship, Teacher Academy and Service Learning Programs at the high school provide opportunities for internships in the community.
- Utilize the career exploration tools and assessments in Naviance (Strengths Explorer, Do What You Are, Career Interest Profiler).

Considerations in choosing a college

- Identify type of education needed for desired degree/career path
- Compare and contrast admission requirements for your field of study/major at various universities.
- Identify most important factors: programs, cost, location, size, religious affiliation, athletics, clubs, etc.
- Start researching universities, colleges or other post-secondary institutions that offer the field of study that meets your needs.
- Explore honors and scholar's programs at these universities-do they offer opportunities that promote your interests, or do they offer additional scholarships?

- Consider scholarship and financial aid opportunities at each university. Compare the factors that go in to the merit scholarships.
- Visit the university and program of interest and ask about accreditation for specific college majors.
- Meet with the college admission reps that visit the high school.
- Look at internship opportunities at the university.
- What are the housing requirements/opportunities?
- Compare your academic profile to the university's admitted freshman class profile (university website). In terms of acceptance, is this a safe school or a stretch school? What about the major of interest-what are the admission requirements (college websites)?

What are the factors in college admissions?

- Academic preparedness demonstrated through college preparatory curriculum, grades , and test scores.
- The high school record #1 factor in college readiness
- “GRIT” another important factor if a student has faced adversity or overcome obstacles and continued to work diligently.
- Admission staff are looking for a variety of factors that highlight a student’s diversity, experiences, affiliations, activities and interests. Value is place on the depth and leadership in activities as opposed to number of activities.

Admission Plans

- Open enrollment colleges: Must have high school diploma or equivalency. These include community colleges, regional campuses with transfer option, some private and public universities. Be aware that there are programs/majors in the open enrollment universities that have competitive admission processes. In order to declare any major you must have non-remedial test scores or fulfill remediation requirements.
- Moderately selective
- Highly selective

NCAA Requirements

- * Students must first go to the NCAA and register with the eligibility center
 - * www.eligibilitycenter.org
- * Continue to make sure your student is taking the courses to meet core course requirements
- * When taking the ACT/SAT request test scores to be sent to the eligibility center (code is #9999)
- * Student can request to have their transcript sent to the NCAA through Naviance at the end of the junior and senior years.

College Vocabulary

Regular Decision- traditional time frame for the college application/acceptance process. Every school's deadline is different.

- **Rolling Admission** – Students are accepted/denied as applications are received.
- **Early Decision**- Option for the application to be one “first choice” school. Application is early in the fall (Nov. 1) with an expected response in December. If accepted, you must withdraw your application from all other schools and attend this school in the fall. This option is binding.
- **Early Action**- option for application that can result in earlier acceptance. Students can choose more than one school to apply early. Some schools give first consideration of scholarships to early action applicants.
- * **Common Application**- an online application that many colleges use. Most schools have a “supplement” application to the common app. The Common Application can be found at: Commonapp.org
- * **Coalition Application**- is a NEW online application for applying to colleges. The Coalition Application can be found at: coalitionforcollegeaccess.org

FAQ:

Do all colleges require standardized test for admissions?

- * Most colleges do require either ACT or SAT I
- * Growing number of test optional colleges
- * FairTest: National Center for Fair & Open Testing maintains a list of test optional colleges at www.fairtest.org
- * Additional tests (SAT II) may be required for more highly selective schools

FAQ:

When should I take the ACT/SAT I?

- * The testing companies recommend testing during the sixth semester
- * Retesting should be late in junior year

Note:

February 20, 2019, Olentangy will offer a free opportunity for JUNIORS to take the ACT during the school day. This does not include the **writing portion**.

FAQ:

How do I register for ACT, SAT I, SAT II?

- * Students register for these tests online, through a student account (other than school based Feb. test)
- * Students must upload a picture of themselves on the registration form
- * Students receive and send scores through their student account

FAQ:

How do colleges receive my test scores?

- * Students may request on the test registration form that their results be forwarded to 4 colleges
- * Students may want to wait and forward their tests scores when they apply. This is done through their online account
- * Students and their parents control their test results - the high school does not transmit test scores

FAQ:

Should I take these tests more than once?

- * Many students choose to retake the ACT and/or SAT
- * Student may retake these test as often as they like
- * Research suggests that results are not likely to improve without significant preparation

FAQ:

Which test should I take?

- * It's completely up to you. Rest assured that colleges will accept both tests equally
- * Pick the exam that suits you best: Research is the first step in choosing which standardized assessment is right for you

FAQ:

Should I register for the optional ACT/SAT Writing test?

- * **YES –at least once!**
- * **Although most colleges aren't using it for admissions purposes, they may use it for placement purposes, or specific programs within the college may require it for admission**

FAQ:

If a student takes both the ACT and SAT I and/or retakes either/both tests, how do colleges decide which score to use?

- * Most colleges use the student's highest score from a single administration
- * Some colleges will “super score” by combining the highest sub scores from multiple administrations
- * Admission practices vary significantly, so students should check with admission offices

FAQ:

How do colleges use ACT and SAT scores?

- * The primary use of test scores is in the admission formula
- * Many colleges also use the test scores for placement purposes
- * Another common use of test scores is in scholarship decisions
