

# Dear ASFM Alumni,

Although these challenging times have made all of us face disruption and anxiety, it also has become a moment for reflection and placing value on the important things in our lives.

ASFM had to adjust quickly to changing situations, making rapid and important decisions to save the school year for the students and to preserve the high standards of the educational program. The following are some of the important actions that ASFM has taken:

ASFM was one of the first educational institutions in Mexico to formally adopt social distancing.

A Distance Learning Plan was rolled out in a matter of days to preserve the school year for our students.

ASFM 2019-2020 school year and academic program will be completed online through June via our Distance Learning Plan (DLP).

Dr. Michael Adams, ASFM Superintendent, is monitoring the status of the city and of the country and is announcing next steps each week as they transpire.

The ASFM Board of Directors approved a reduction of 20% to the April tuition for all families and opened a virtual window for families who require additional financial aid and/or a deferred payment plan until July 31st.

The ASFM Board of Directors also froze tuition rates through December of 2020.

ASFM will continue to make its greatest effort to provide the students with the best learning during this unprecedented COVID-19 contingency.

Stay safe and healthy!

*Once an Eagle, forever an Eagle!*
