

24th April 2020

Dear Pupils, Parents and Guardians,

As we come to the end of our first week of remote learning, I would like to take this opportunity to thank pupils, parents, guardians and colleagues for all their support. Everyone has stepped up to this challenge, engaged purposefully and adapted to these changes with positivity. These are challenging times for us all, but the messages of support I have received from parents mean a lot to the staff. It has been wonderful to see the school community as a whole working so hard together and supporting each other.

As mentioned in my start of term video message, we would like to obtain your feedback on the first week of remote learning and would appreciate it if you could complete a survey which we will send on Monday evening. There will be areas where things have gone well, others not so well, but your feedback is important in order that we have the opportunity to review what we are doing and improve where we can.

Once again, thank you so much to you all.

Kind regards,

Ben Vessey
