TRADITION OF EXCELLENCE

RANKIN COUNTY SCHOOL DISTRICT HEARING/VISION SCREENING REFERRAL LETTER

Dear Parent / Guardian,

Rankin County School District performed hearing/vision screenings to identify students who have difficulties or who may be at risk for problems. The hearing/vision of students is vital for classroom learning. It is important to identify any barrier to learning that can be corrected. Your child's hearing / vision screening results suggest that he/she should have a complete professional exam. It is important to your child's school success to have a professional evaluation. If a problem is found and corrected, it may help your child succeed in his / her schoolwork. Just because a student has not complained about difficulties, it should not be assumed there are no problems.

Student name: _____

Date of screening: ____ / ____ / ____

Your child failed the following screening:

- Hearing
- Vision

Sincerely,
RCSD School Nurse
