## SECTION 7: SAFETY

### USE OF DANGEROUS EQUIPMENT AND MATERIALS

Public institutions are sometimes held liable for injuries sustained by persons using dangerous equipment and materials on the institution's premises. For this reason, it is essential that each employee exercise every precaution to see that such equipment and materials used are handled only when the employee is present. Each employee is responsible for familiarizing himself or herself with the safety procedures and regulations. On the Iola Campus, the employee is responsible for reporting any and all possible safety hazards existing within the facilities to the Director of Physical Plant Operations. On the Burlingame Campus, the employee should report any and all possible safety hazards to the Dean for the Burlingame Campus. The College carries insurance to protect individual employees from suit; employees may be familiarized with this coverage through the Business Office.

### PROCEDURE IN CASE OF ACCIDENT

If an instructor, staff, or student is injured, there is no substitute for good judgment and the ability to render discretionary assistance. Ambulance services are available on call. The supervising administrator should be notified of the accident as soon as possible. Accidents of serious nature should be reported to the Administrative Assistant to the Vice President for Student Affairs as soon as possible. The Personnel Office should be contacted immediately for forms to be completed if injury is to be covered by worker's compensation.

### EMERGENCY NOTIFICATION PLANS

In the event of an emergency the following procedures will be followed to contact students, faculty, and staff:

Mass email to all students, faculty, and staff via allenc.net and allenc.edu addresses.

Text message to all students, faculty and staff via Emergency Notification System (ENS).

All Allen Community College students, faculty and staff will be automatically enrolled in the College's emergency notification system. Students, faculty, and staff wishing to opt out of emergency notifications can do so by completing a form on the myAllen portal.

### SEVERE WEATHER PROCEDURES

A tornado watch indicates that conditions are favorable for the development of severe thunderstorms, large hail, heavy rains, damaging winds, and tornadoes. A tornado warning indicates that a tornado is developing and people in the warning area should seek shelter immediately.
