

CDS Robotics Team Recruitment

The Middle School and Upper School Design Technology departments are very excited to announce that CDS will be competing in the international VEX Robotics Competitions in the coming academic year and we are recruiting team members!

These competitive teams are open to all students in Middle School and Upper School and are designed to set you on the path through Middle School (VEX IQ), High School (VEX V5), and then to top colleges (VEX-U) around the US and the world as a competitive robotics team member.

For team members, this robotics competition will be the most fun and rewarding that hard work can be. The following roles need to be filled: Designers, Fabricators/Builders, Programmers, Project Managers, Accountants, Public Relations Managers, Photo/Videographers, and Technical Writers.

Details about the VEX programs can be found [here](#).

Interested students should email Mr. Hayes: bhayes@carrollwooddayschool.org for more information.
