

Home Learning menu for 1st grade Digital #4

Your teacher will advise you how to use this menu as part of your learning.

Watch this Foundations video on 3 syllable types: Closed, V-Ce and R-Controlled. Then make a list of 3 or 4 words for each syllable type. Share it with your teacher.

Draw a map of your home or neighborhood. Label all of the places that are important to you!

Listen A Tiny Seed by Eric Carle [Spanish](#) [English](#)
If you have Raz Kids or Epic, read another book about plants too.

(example)
Then draw a picture of a plant like this and label it with these words!
Activity: [Spanish](#) [English](#)

Listen [to this video](#). Now tap out these word:

mat, fat, like, bike, me, she, thing, sang

Watch: Danny the Dinosaur in English or Spanish. Write a story telling what you would do if you could spend the day with a real dinosaur.

Be a problems solver! Follow this link to read about [Coronavirus Challenges!](#)

Pick a challenge and make up a solution. You can draw your solution, write about it or tell someone about it.

Independent reading goal:

Make a graph to show how many minutes you read each day! How high can you get? **15? 25? 30 minutes?**

Go on a [Soundscape Scavenger Hunt](#).
Or make up your own song with the help from [Chrome Music Lab](#).

Paper Airplane Challenge!!
Build 3 paper airplanes with different designs. Check out these [5 different ideas](#). [En español](#)

Which one flies the farthest? Why?

Can your plane carry a paperclip?

You are now an expert on staying safe at home!
Write an informational book called "How to Stay at Home".

Include all of the things you can do to pass the time and stay safe and healthy!

I have 7 pieces of fruit on my plate. Some are apples and some are bananas. How many of each could I have? Draw a picture showing 3 different combinations!

[Listen to Michelle Obama read The Gruffalo.](#) Can you make up some silly animal food you would make up? Draw a picture of what you think the Gruffalo looks like.

Learn a magic trick or a card trick and practice it on a family member.

[Here is a You Tube video of a kid teaching you how!](#)

[En español](#)

Learn 10 new big words. Find somewhere to write them and draw a picture of what they mean! You could use a dry erase marker on the window or chalk on the sidewalk or crayons and paper!

[Play this Clap it Out Go Noodle Game!](#)

Now find ten things around your house and clap them out!

Watch the [video clip](#) and sing along to What Time is it?

Pretend your body is a clock. Try to make each of the times using your arms as the minute hand (long hand) and the hour hand (short hand).

Get your hips moving with [Go Noodle](#). Teach this to your family.. And for a challenge do this [Go Noodle](#). See if you can remember and repeat or make up your own patterns.

GoNoodle

Make a Telling Time Diary. Write down the times on a piece of paper: 12:00, 1:00, 2:00 and 3:00. Ask a family member to tell you when it is each of the times above. Write each time and draw a picture of what you are doing at that time of day.

[Paper Mosaics](#) The focus is on the language here. The design does not have to have the squares lined up to compare, so kids can be creative. This activity will go a long way if students can solidify their understanding of the meaning of "more" and "fewer".

[Sheep Won't Sleep](#) This book is about Clarissa's humorous struggle to fall asleep. She begins to count sheep by 1's, alpacas by 2's, llamas by 5's, and yaks by 10's. This book is recommended for grades 1-2 and is a good introduction to skip counting. It is a funny book that most children will enjoy and learn from.
