

## **CHEMISTRY I HONORS - 2003350**

Grade 10-12, Credit 1.0

**Prerequisite: Biology honors or prior approval by the acting Department Chair**

This course is an in-depth study of the fundamental principles of chemistry including atomic structure, chemical formulas, molecules, and reactions. Stoichiometry, acids and bases, and colligative properties will also be covered in this honors course. The course is taught through lecture/discussion, classroom activities, and projects, as well as laboratory experiences.
