

CRIMINAL JUSTICE I - 8918010

Grade 9-12, Credit 1.0

The purpose of this class is to introduce students to the criminal justice system and understand the foundation of our laws. Students will study the agencies and processes involved in the criminal justice system, including criminal law, legislature, the courts, and corrections. Students will look at actual cases regarding investigations, arrests and trial procedures. While the textbook is the main resource used in this course, in order to meet the intent of the standards as well as the rigor expected by the State of Florida and SMA, other materials, including videos, from external repositories will be used.
