

CRIMINAL JUSTICE II - 8918020

Grade 9-12, Credit 1.0

Prerequisite: Criminal Justice I

Students must have successfully completed Criminal Justice I in order to take this class. Criminal Justice II focuses on the forensic aspects of criminal justice. In this course, students will learn about real-world crime scene investigation, from start to finish. A sampling of topics include fingerprinting, blood spatter, and forensic entomology. For this course, two textbooks will be used as well as external readings and videos.
