

## **PSYCHOLOGY - 2107300**

Grade 10-12, Credit .50

Through the study of psychology, students will acquire an understanding of and an appreciation for human behavior, behavior interaction and the progressive development of individuals. The content examined in this first introductory course includes major theories and orientations of psychology, psychological methodology, memory and cognition, human growth and development, personality, abnormal behavior, psychological therapies, stress/coping strategies, and mental health.

Students will learn about human behavior, behavior interaction and the progressive development of individuals. While the textbook is the main resource used in this course, in order to meet the intent of the standards as well as the rigor expected by the State of Florida and SMA, other materials, including videos, from external repositories will be used. This Psychology course must be taken with Sociology.
