

OUTDOOR ED (Firearm Safety) 1502470

Grades 11-12 Credit .50

Prerequisite: OUTDOOR ED (Defensive Tactics)

The Outdoor Ed class is designed to teach the student firearm safety by using the National Rifle Association's method. The class uses the NRA's Basic Pistol Course with class projects and hands-on exposure to firearms to give the student a well-rounded experience. The students will take field trips to the gun range for live fire exercises and training. The student will also complete the NRS's online portion of the hunter safety course. This course is necessary if the student desires to obtain a hunting license.
