Dear Killingly Public Schools Students and Families,

This morning, Governor Lamont confirmed that schools will remain closed for the remainder of the 19-20 school year. While this news was anticipated, it is understandable that students will be disappointed that they will not be returning to the classroom where they have the support of their teachers and peers.

We also recognize the challenges that families face when we experience such a disruption to normal family routines. We appreciate all that our families have done to ensure students remain engaged in learning while finding balance during this unique time.

While we may not be returning to classrooms, please know that as a school district we are still working hard to ensure our students are supported. Our educators, counselors, administrators and staff remain committed to supporting the students in our community through these uncertain conditions.

Our schools will continue to program academically for students through our anticipated last day of school on June 18th. We encourage students to remain engaged in their academic work, and we encourage families to remain connected with your children's teachers and school for ongoing updates.

We look forward to continuing to work together to support our students.

Thank you,

Killingly Public schools
