

Protecting Your Child's Privacy Is Our Top Priority

We believe it is important that schools, teachers, families and students understand how we use and protect their data while providing the best learning experience for students. We believe that understanding is built through transparency about our practices. We also believe that improvement in our privacy and security practices is achieved through continuous engagement with our Summit Learning community and data privacy experts.

common sense

Did You Know: Common Sense Privacy Program published privacy evaluations of the top 10 edtech products used in schools and districts across the U.S. Summit Learning came out on top, receiving their highest score. Read more about this distinction at <https://tinyurl.com/commonsense-edtech>.

Our Core Commitments

- 1. Data is used solely for educational purposes.** We only use student personal information for educational purposes. There are no exceptions to this.
- 2. Data is never for sale.** We never sell the personal information of any student or any user.
- 3. You own and control your own data.** School staff, families, teachers and/or students own and control their personal information. Summit Learning does not own the student personal information used in the program.
- 4. We go beyond compliance.** In addition to compliance with federal privacy laws like the Family Educational Rights and Privacy Act (FERPA), we voluntarily comply with the Children's Online Privacy Protection Act (COPPA) and are committed to the Software & Information Industry Association and Future of Privacy Forum's Student Privacy Pledge. Read more online at studentprivacypledge.org.
- 5. We practice privacy by design.** Everything we do, from improvements to the Platform to how we train our staff, has privacy and security in mind.
- 6. We only work with trusted partners.** We rely on service providers to help develop and support the Summit Learning program, and we require all the service providers who have access to student personal information to comply with strong privacy and security terms.
- 7. We're committed to continuous improvement.** Best practices in privacy and security evolve just as technology evolves, and we are committed to working with families, schools, vendors, industry leaders, and partners who help us keep learning and evolving in these areas in order to help protect student personal information.
