Educators showed their resiliency though and jumped into action to best support students. Now that the Governor has made the decision to continue remote learning for the remainder of this school year, we must make purposeful decisions as to what content to teach now so that students are well prepared for next year. As a result, MidWest JMT Math Specialists joined forces and created Prioritizing Math Standards: Triage for Here and Now. Two Question and Answer (Q&A) sessions will be offered for those leaders and teachers who are interested in diving deeper into this work. We ask that before you join one of the Q&A sessions, you first watch the recording. Approximately an hour before the live Zoom Q&A session you will receive an email with the Zoom invitation and supporting documents.</p>	<p>Andy Mitchell Pete Greene Sara Missell Nicholette Klingensmith</p> <p>This session is a JMT opportunity between Genesee Valley Educational Partnership, Monroe One, Monroe 2-Orleans BOCES, and Wayne-Finger Lakes BOCES.</p>
