

May 9, 2020

**Dear Notre Dame Community,**

The School Board members of Notre Dame High School conducted the virtual monthly board meeting on Thursday, May 7th. The School board discussed several topics such as the continued response to COVID-19 and the future of our school during these times.

The school board joins the entire staff of Notre Dame to reassure all families and students that extraordinary effort is in motion to conclude the school year, continue summer school, and plan the following school year. The school board was encouraged by the administrations pro activeness since the beginning of this situation with online learning, the current and ongoing registration/enrollment for summer school and the coming announcement of what the 2020-2021 school year schedule will look like.

We would also like to announce the upcoming survey that will be sent out and encourage maximum participation to have your feedback heard. As the COVID-19 situation unfolds, the school must consider the guidelines from state, local, and Diocese levels.

We pray your families are safe and healthy and ask for your prayers that Holy Spirit guides us all during this time.

On behalf of the Notre Dame School Board,

***Anthony B. Trimboli***
