OTHER INFORMATION: Please see the assignment/accountability sheet for detailed information about assignments.

Hello,

Well, here we are, the last week of assignments. I want to express my appreciation to parents and students. Thank you for your efforts in making an unchartered course successful. Your patience and diligence have made such a difference!

Please help your child go through the bag that was left on your porch.

Bag Contents:

1. Geoblocks & 2. Geoblock Response sheet (part of assignments)
3. Scholastic News: To be enjoyed and used for Oral Reading Practice.
4. Animal Information Sheet: This is for students to read. There are also a couple of virtual field trips sites on the calendar. I told the students in our last Zoom Meeting that we would be doing animal reports this week. This has changed. Animal reports are not an assignment. As we finish-up this last week, I think the addition of a report would be an overload for many students. For this week there is not a specific science assignment.
5. Individualized instructions for other activities
6. Practice worksheets for graphing and shapes. (These are optional and meant to be used for summer practice.)
7. Instructions and supplies for Advice letter. (The completed letter can be dropped by the school or brought to your child's End-of-Year appointment.)

Thanks Again for all the hard work and effort!

Weekly Accountability - Accountability

May 11th - 15th

Monday
