

YEAR 5 WEEKLY HOME LEARNING – W/C 11.05.20

Have a go at as many of the tasks as you can. You can choose which ones you do each day.

A book I recommend... *The Wizards of Once* by Cressida Cowell

Focus spelling words for this week:

- archaeology
- influential
- consequence
- suspicious
- disheartening
- uncomfortable
- hygiene

Keeping Active

The Specsavers 'Virtual' Sussex School Games.

Don't forget to sign up and represent our academy in the School Games. A new sport every single week with challenges suitable for all.

Maths

White Rose have produced some great home learning so you can keep up to speed with your maths learning. Take a look at <https://whiterosemaths.com/homelearning/year-5/>

We are thrilled that we are able to keep in touch with many of you on Twitter and Facebook. Please continue to share with us!

@MrGerrard_RSW @MrsWright_RSW

Get a collection of containers, such as cups, saucepans, bowls and estimate how many smaller containers it takes to fill a bigger one. Then try it out to see how close you are! You can use the water afterwards on household plants so it doesn't go to waste.

Mr Gerrard is thinking of a 3 digit number. When he multiplies his number by 100, the ten thousands and hundreds digits are the same. The sum of the digits (all digits added together) is 10. What number is he thinking of?

Try to teach yourself a new skill this week. You could try keepy-uppies, learning a new language, cross-stitch knitting or mastering a cooking recipe. Share with us how you have got on at the end of the week!

Try to read something that you have not read before – this could be a new book, a newspaper, a magazine or an audiobook. Think about what attracted you to this text. Did you like/dislike it? Would you recommend it to your teacher? Why? Why not?

Write a short story about you and your friends watching this rare sight.

Mrs Wright has £357000 in her bank account. She divides that amount by 1000 and takes that much money out of the bank. Using the money she has taken out, she buys a sofa costing £269. How much does she have left from the money she took out?

I have spilt paint on my calculation – what are the missing digits?

		2		6	9
×				2	
	2	6	5	7	2
	1	5	7	1	3
		0	3	3	2

Spend some quiet time working through the next few pages of your handwriting books that you all have at home. You can show your improvement through some of the other activities you complete this week.

Conduct some research about earthquakes, and why they are not so prominent in the U.K. You could present your findings in a poster, leaflet or fact file.

Spend 20 minutes practising your focus spelling words. Use the strategies on your spelling sheets. Try to write sentences for each word. Can you write a sentence that includes four of your focus spellings?

Start a lockdown nature survey! Jot down how many different birds, flowers or insects you can spot outside. You could record your results in a tally chart and then translate to a graph.

<https://www.toporopa.eu/en/>
This is a great learning resource to test your knowledge of the geography of the United Kingdom. Test yourself on Monday, conduct some research throughout the week and try again on Friday!
