Culture Study Group Update

After much deliberation, we've paused the work of the Culture Study Group. We began forming this cross-constituent group before the spread of COVID-19 with the hope of commencing work this spring. However, with the difficulty of meeting with constituents during the pandemic, the approach of summer, and pending litigation alleging historic educator abuse, this effort has been placed on hold. We hope to reconvene this group at a later date.

A handwritten signature in black ink, appearing to read "Tim Bazemore".
