

TB Screening

Kansas statute requires all students to complete a screening for tuberculosis before beginning their first semester. This screening is not part of the application process and will not be used to determine admissions to Allen Community College.

1. Do you have any of the following symptoms: lasting cough, coughing up blood, fatigue, fever, loss of appetite, or weight loss?
2. Have you been diagnosed with active TB?
3. Have you been in contact with a person who has been diagnosed with active TB?
4. Have you traveled, resided in for more than three months, or were born in a country other than the US? If yes, what country?
