

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

*Summer is for Trying!*

## Dwight School Seoul Summer Academy G6 - G8 Program 2020

### **FROM PAGE TO STAGE:**

#### **PROGRAM OUTLINE:**

'All the world is a stage' in this educational and fun literacy program! Students will read texts and enhance their comprehension skills by analyzing the text for meaning, character development, setting and many other elements. They will then develop and strengthen their writing skills and they translate the text into a play. They will understand what it means to write for a particular audience. This fun reading and writing program will culminate in the rehearsal and production of the play they have created from the original book. This is a great program for improving your reading, writing and English Language skills.

### **BOOSTER MATHEMATICS - THE PROBABILITY IS DEFINITE**

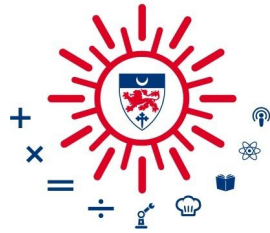

#### **PROGRAM OUTLINE:**

Keep your mathematics skills fresh throughout the summer in this Booster Mathematics course. Students will review content of Number Sense, Operations, Algebraic and Proportional Reasoning, and Probability and Statistics. Students will learn a variety of strategies to solve problems, as well as fun and unique ways to solve mathematics questions with trivia and games. The probability that you will keep your mathematics skills fresh and have fun is definite!

### **THE SCIENCE OF COOKING**

#### **PROGRAM OUTLINE:**

Have you ever wondered about the science behind the food you eat? In this course, students will be using the Baker Space and science lab to learn about the chemical/physical properties and changes in cooking. This course will take an inquiry-based approach to the science of cooking through the scientific method. Students will be testing, making (and even eating) various recipes! Through this course,

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

*Summer is for Trying!*

students will finesse their lab practical skills and even have a few recipes under their belt!

## **EUREKA! EXPERIMENTATION NATION!**

### **PROGRAM OUTLINE:**

Do you love science and want to spend more time in the lab? This course will feed your curiosity and craving for hands-on science! In this course, students will engage in experiments and lab investigations that cover concepts in biology, chemistry, and physics. Students will refine their practical and observational skills as they dig deeper into the scientific world around them!

## **VEX ROBOTICS**

### **PROGRAM OUTLINE:**

Bring your inner engineer to this program where you will learn engineering, problem solving, and programming skills. Using the VEX Robotics Design System, students will build robots, participate in engineering challenges, and work both on their own and in teams. Students will gain hands-on experience by learning to design their robots, program in ROBOTC, and participate in real world challenges.

They will be guided through the robotics build process so they can experience the joy and fun of robotics while learning programming and engineering concepts. It is an ideal platform for students to explore important STEM fundamentals and computer science concepts, and as such, students will engage in a series of fun challenges that put their skills to the test.

At the end of the week, students will take home videos and pictures of their robots, as well as a new found joy for robotics!

## **THE ART OF ANIME: Creating your own WEBTOON**

### **PROGRAM OUTLINE:**

Try something new! Students will be introduced to the artistic process of creating an original WEBTOON. You will research and experiment with various drawing styles to gain technical skills for your drawings. We will then develop conceptual thematic ideas

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

*Summer is for Trying!*

for story creation and practice the process of storyboarding. Students will use digital drawing media to produce their personal WEBTOON and by the end of the program, students will publish their original content online.

## **SPORT - TENNIS**

**PROGRAM OUTLINE:** Suitable for beginners and intermediate players.

Students will participate in lessons for 3 hours in the morning from 8.30-11.30am. (Afternoons may be too hot.) There will be instruction, drills, games, activities as much as possible on court, ( in event of inclement weather, the students will do alternative tennis related activities). Students will be videoed during the course and be able to see their progress. They will be presented with a certificate of completion at the end.

**No prior experience necessary. Tennis or sport shoes, shorts, t-shirt, hat, sunscreen and small towel.**

### **Outcomes:**

- The students will learn the basics of the game.
- How to hit different shots- forehand, backhand, volley, serve.
- The rules and etiquette of the game
- How to play a game and a set and how to score.

## **SPORT - SOCCER TRAINING**

### **PROGRAM OUTLINE:**

Students will train to develop and enhance their soccer skills with a former professional soccer player. They will build their strength and endurance in the fitness center, build their skills through drills and practice, understand the strategy of the game and compete in friendly competitions. A great way to stay physically active this summer, while improving in a game they love!

## YOUTH POWERFUL LEADERSHIP

### PROGRAM OUTLINE:

Powerful Youth (<https://powerfulyouth.com/>) provides award-winning international leadership training designed for students ages 12-18. Awarded iStudy Global's "Best in Experienced Based Learning" 3 years in a row, we offer a highly engaging and multi-disciplinary project-based learning to students to help them be more successful in their personal and academic lives. Our key goals are to build individual student's confidence, leadership soft skills such as: creativity, communication, critical thinking, teamwork as well as their global perspective. Our vision is to create a community of powerful youth who know how to turn their passions into their own purpose to create meaningful positive change in themselves and for their community.

During the 2-week Summer Academy at Dwight Seoul, we will introduce and help students apply key leadership concepts to further their academic, personal, and future professional success. Many of these concepts and skills are taught in almost all Master's in Business Administration (MBA) but also other masters degrees as well as universities all over such as: Harvard, Cambridge, Seoul National University, but are extremely helpful for high school students as well if taught well. Topics over the 2-week program will include:

- *How to effectively set smart goals and achieve them.*
- *Understand the importance of your own Emotional Intelligence (EQ) popularized by Harvard's Daniel Goleman.*
- *How to establish a more successful Growth vs less successful Fixed Mindset (Dr. Carol Dweck).*
- *How do you develop your "8 to be Great Leadership Qualities" from Richard St. John's 10-year research study.*
- *How to make my decisions with imperfect information.*

## SCHOOL OF ROCK

### PROGRAM OUTLINE:

Have you seen the School of Rock? Drop everything, grab a mic or instrument, and make some music this summer! In this program, students will become a member of a live band and develop essential music-making skills. Based on the revolutionary new teaching method called “Music as a Second Language”, **Modern Band** follows a student-centered approach that teaches students to play the popular musical styles they know and love, including rock, hip-hop, and pop. **Modern Band** is a program where students will not only make music and jam, but also be part of a live performance, featuring guitar, ukulele, bass, keyboard, drums, vocals, and technology.

## SWIM LESSONS / SWIM TRAINING

### PROGRAM OUTLINE:

Beginner Swim Lessons - Students will learn basic water safety and swimming skills, including floating, gliding, and basic freestyle. (30 minutes in water, maximum 8 students).

Intermediate Swim Lessons - Students with previous swimming experience will expand their knowledge and skills through further development of the four competitive swim strokes. (45 minutes in water, maximum 10 students).

Competitive Swim Training - For students, with extensive swimming experience and training, will complete this training focused on fine-tuning stroke work, flip turns, and race strategy. This is perfect for students considering competitive swimming. (1 hour in water, maximum 12 students). All lessons will be held at DMC Ville pool.

**INSTRUCTOR: Jamie Wheatley (certified lifeguard)**
