

AVON OLD FARMS SCHOOL

Step I: Open an Account on SSAT

Avon Old Farms School utilizes the Standard Application Online (SAO) which is available exclusively online at ssat.org. From this portal, you will be able to submit applications, track the status of recommendations, and keep track of other required forms. Please note that our admissions team cannot update you on your application status until payment is submitted due to new SSAT regulations.

Step II: Application Requirements

The Transcript - We require grades from the first quarter/trimester of the current academic year as well as grades from the past two years. Most second-quarter/trimester grades are released after our application deadline, but please submit them to the Office of Admission when they become available.

The SSAT - (Secondary School Admission Test) is required of all students entering 9th and 10th

grade. Please visit www.ssat.org for registration information, testing dates and locations, registration deadlines, and fees. Students entering the 11th or 12th grade should submit PSAT or SAT/ACT scores.

The Application - The application, completed by the student and his parents, is to be submitted with a \$70 fee.

School Report - A school report must be completed by the head of school, principal, or guidance counselor.

Recommendations – Recommendations from your current Math and English teachers, as well as one supplemental recommendation from a person of your choosing.

Interview - An interview is part of the application process and is required. Please schedule your interview between September and January. Contact our admission office at 860-404-4243.

Step III: Financial Aid

Financial aid is need-based. Families applying for aid should complete the Parents Financial Statement (PFS) and submit it to the evaluating agency. Avon Old Farms works with School and Student Services to determine the financial need of each family. Processing can take 4 to 6 weeks; therefore, please start this procedure as early as possible if financial aid is an important issue. Please visit www.solutionsbysss.com or the Avon Old Farms Financial Aid webpage for more information.

Applications for admission are due on January 15th.
Financial aid applications are due February 1st.
